# Abacus & Vedic Math Syllabus Planner

Innovation Towards Academic Excellence.

SCHOOL NAME :

DE PAUL SCHOOL, UKKUNAGARAM

## Course Curriculum

### Abacus

An abacus is a traditional counting device consisting of beads or stones on rods or wires, used for arithmetic calculations. It facilitates manual computation by sliding beads to represent numbers and perform basic mathematical operations.

### Vedic Math

Vedic math is an ancient Indian system using mental math tricks and shortcuts derived from Vedas, aiming for efficient calculation and problem-solving techniques.
